

ISO 17712

H

Do You Have Any Idea What These Represent?

If the answer is “Yes,” you are likely a loss prevention manager working for a company that is a C-TPAT shipper or a company that has cross-border shipments. If that is the case, the symbols and logos above may create some level of anxiety for you.

Are you properly securing your shipments with seals that meet the standard? Do you have appropriate documentation that the seals are truly compliant?

Stoffel Seals Corporation has been providing security solutions to a wide range of industries for over 65 years. Stoffel has remained a leader in the security-seal market by continuing to develop security solutions that address the ever-changing needs of their customers.

Stoffel Seals has a full offering of tamper-evident security seals that range from plastic indicative seals to the C-TPAT compliant bolt-and-cable seals that meet the ISO 17712 standard for high security.

Addressing Customer's Needs

For Stoffel, properly addressing a customer's need is not exclusive to getting a tamper-evident security seal in their hands. Stoffel and its team of security-seal professionals work with each customer to understand both their security needs and operational constraints.

As most security professionals are aware, security needs are often affected by any combination of budgets, perceived threat, government regulations, and other critical issues. Stoffel Seals has a full offering of tamper-evident security seals that range from plastic indicative seals to the C-TPAT compliant bolt-and-cable seals that meet the ISO 17712 standard for high security. This wide selection of products allows Stoffel to adjust quickly to the changing requirements of each customer.

Operational Constraints

Addressing the operational constraints of a company is equally as important as the actual security need. Understanding

delivery requirements and having the flexibility to service North America quickly with custom-printed products has provided a real advantage for Stoffel Seals. With manufacturing facilities in Canada and Georgia, Stoffel is well positioned to service the entire North American market.

For More Information

If you fall into the category mentioned above where C-TPAT provides some anxiety for you, please contact Stoffel Seals to discuss your security seal compliance.

For a complete listing of seals or for additional information, please visit Stoffel on-line at www.stoffel.com or call Brian Lyle, Business Unit Manager – Security Solutions, at 800-344-4772 x 7121. ■
